To select the "Party of" level best for you, first decide who you want listed as a member on your card. At least one listed member must bring the card and a photo ID for admission. When you list a person's name on the card, that "party" slot is now designated for that member and cannot be used for a guest. Next, decide how many additional "guests" you would like to bring. "Guests" can be your child, a friend, or family. Each additional "party" slot you purchase allows you to bring one person.

Let's say you purchase a "Party of Four." You list yourself and your spouse on the card (that's two members). You leave two slots open and can bring two people (+2) each time you visit (2 + 2 = 4!) If either member decides to come alone, you still have just two "guest" slots.
