

# ROAD RULES

## Fossil Rim Wildlife Center

**FOSSIL RIM**  
**WILDLIFE CENTER**

fossilrim.org

We want you to enjoy your visit. Please remember that the animals you will be viewing are wild and, as with any wild animal, can be potentially dangerous. They are not tame or domesticated; their instincts and behavior are wild and **VERY** unpredictable. You are entering **THEIR** world. Please respect them and their habitat.

### **Absolutely no pets are allowed at Fossil Rim**

Due to the United States Department of Agriculture regulations, pets are not allowed in the park with our endangered animals. We realize that many people travel with their pets, but we cannot allow pets in the park nor can they be left in parked vehicles in our parking lot, while you are on a tour. If any pet is found to be in a vehicle in the park, those visitors will be escorted out of the park without refund. **Please take this into consideration while making plans to visit us.** There are veterinarians in Glen Rose area that offer boarding services, please call 254.897.2960 for more information.

### **Stay in your vehicle at all times**

All Fossil Rim animals are wild and free. For your safety you **MUST** remain in your vehicle. All tailgates, van and car doors, and hatchbacks **MUST** remain closed at all times. Jeeps **MUST** have side doors. Convertibles with tops down and passengers in pickup beds **ARE** permitted. Pickup passengers **CANNOT** "change places" (i.e., move from cab to bed or visa versa) inside the park (you can switch at the Overlook.)

### **Do not honk your horn**

This could frighten or cause the animals to stampede, which could cause, major damage to yours or other vehicles in the park.

### **Stay on the paved tour route**

Speed limit is 15 mph. There are no turns on the route. Always go forward.

### **Do not stop 50 ft. on either side of any cattle guards**

Animals may be tempted to walk over the bars and injure themselves.

### **Pull off to the side of the road when stopping**

Pulling over allows others to pass.

### **Do not feed from your hand or feed bag**

Drop pellets on the ground. Wildlife feeds off the ground at all times.

### **Do not feed anything but the purchased feed.**

Doing so may result in serious, even fatal, health problems for our animals.

### **Remove any flags, balls or other loose objects from the outside of your vehicle**

Animals are attracted to colorful moving objects and if eaten could result in serious injury.

### **Keep all trash, including cigarette butts, in your car**

Litter can result in serious injury to the animals and cigarettes can cause dangerous fires. There are trash cans at the Overlook site and the exit where you can deposit your trash.

**Fossil Rim Wildlife Center assumes no liability for damage to vehicles, persons or property as a result of any interactions with the animals and facilities. Fossil Rim reserves the right to remove, without refund, anybody that is in violation of these rules.**
